

### 1. THE CABINET BENCH TOP AND LEGS

1. Before starting construction, carefully examine the drawings. In certain circumstances, changes or special orders may be necessary for the project.  
 The drawings are intended to be used as a guide only. They are not intended to be used as a substitute for professional advice.  
 For details of construction, refer to the instructions for the individual components, which are available separately from the main instruction manual.

1. Assemble the cabinet top (part No. 1) to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4). Tighten the screws and washers until they are snug. Do not over-tighten. The cabinet top (part No. 1) is made of particle board and should be assembled to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4).
2. Assemble the cabinet top (part No. 1) to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4).
3. Assemble the cabinet top (part No. 1) to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4).

4. Assemble the cabinet top (part No. 1) to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4). Tighten the screws and washers until they are snug. Do not over-tighten. The cabinet top (part No. 1) is made of particle board and should be assembled to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4).
5. Assemble the cabinet top (part No. 1) to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4). Tighten the screws and washers until they are snug. Do not over-tighten. The cabinet top (part No. 1) is made of particle board and should be assembled to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4).
6. Assemble the cabinet top (part No. 1) to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4). Tighten the screws and washers until they are snug. Do not over-tighten. The cabinet top (part No. 1) is made of particle board and should be assembled to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4).
7. Assemble the cabinet top (part No. 1) to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4). Tighten the screws and washers until they are snug. Do not over-tighten. The cabinet top (part No. 1) is made of particle board and should be assembled to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4).
8. Assemble the cabinet top (part No. 1) to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4). Tighten the screws and washers until they are snug. Do not over-tighten. The cabinet top (part No. 1) is made of particle board and should be assembled to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4).
9. Assemble the cabinet top (part No. 1) to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4). Tighten the screws and washers until they are snug. Do not over-tighten. The cabinet top (part No. 1) is made of particle board and should be assembled to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4).
10. Assemble the cabinet top (part No. 1) to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4). Tighten the screws and washers until they are snug. Do not over-tighten. The cabinet top (part No. 1) is made of particle board and should be assembled to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4).
11. Assemble the cabinet top (part No. 1) to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4). Tighten the screws and washers until they are snug. Do not over-tighten. The cabinet top (part No. 1) is made of particle board and should be assembled to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4).
12. Assemble the cabinet top (part No. 1) to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4). Tighten the screws and washers until they are snug. Do not over-tighten. The cabinet top (part No. 1) is made of particle board and should be assembled to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4).
13. Assemble the cabinet top (part No. 1) to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4). Tighten the screws and washers until they are snug. Do not over-tighten. The cabinet top (part No. 1) is made of particle board and should be assembled to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4).
14. Assemble the cabinet top (part No. 1) to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4). Tighten the screws and washers until they are snug. Do not over-tighten. The cabinet top (part No. 1) is made of particle board and should be assembled to the legs (part No. 2) using the screws (part No. 3) and washers (part No. 4).
